MAJOR THOS BICKFORD

THE RED MASK.

A Mocking Demon Stalking Abroad All Danger from it averted by a Skillful Physician

There are for many reasons, few diseases more to be dreaded than Erysipelas and it has not inaptly been termed St. Anthony's Fire. There is no disease which so completely deforms and disfigures the visage of the patient and it may fairly be compared to a red mask thrown by a mocking demon over the human face. It is almost as dangerous as it is repulsive. Arising from a variety of causes running its course with pain—it often ends suddenly in death. The old treatment consisted of blood letting and the use of strong drastic purgatives. The substance of the enlightened modern treatment is all contained in Dr Kennedy's "Favorite Remedy." Use this, and you have taken the essential total of all the best physicians in the land could prescribe for Erysipelas. A case in point. Mr S B Carpenter of Grandville N Y, writes that he had for some time been afflicted with this disease in both legs, and has regained his health by the sole use of "Favorite Remedy." Other cases might be cited did space permit. "Favorite Remedy" is also sure in its action in all other diseases of the blood. Ask your druggist for it, or address the Proprietor Dr David Kennedy, Rondout, New York

STATE NEWS.

Androscoggin

The *Journal* says Of late years the [illegible] land Shakers have had such a large congregation of strangers at their Sunday services in the summer time that their house of worship has not been large enough and the Shaker brethren and sisters have been in a state of lamentation over their cramped quarters and of interrogation over ways and means to extend their meeting-house. Dr Strout of Lewiston who has been their friend and confident advised them to take Sabbath collections to [illegible] [illegible] The Shakers resisted [illegible] Elder Otis Sawyer came out and held consultation with the doctor. Dr Strout urged his point. "Nay" said the good elder—"Nay, the gospel is free and we can't do that." The doctor [illegible] eventually succeeded in converting the Shakers to this idea. On Sunday [illegible] gentleman the doctor visited the congregation and the contribution box was with due ceremony instituted a part of the Shakers ritual. The doctor made some appropriate remarks and his friend passed the box. The result was $1 [illegible] and the doctor thinks the contribution box will not be omitted at future Sunday service of the Poland Shakers until [illegible] an enlarged house of worship

Aroostook

The Houlton *Pioneer* says Walker & Simpson of Houlton merchants and lumbermen [illegible] failed last week. Their liabilities are supposed to be between twelve and twenty thousand dollars. Assets nothing as everything in the shape of property was previously transferred to [illegible] & Son of Calais. The [illegible] creditors are the following Portland firms W & C R Milliken $1,700, Geo [illegible] Hunt & Co $1,000 Shaw, Goding & Co [illegible] and Twitchell Champlin & Co $500. There are several victims in Houlton among them F W Titcomb. Liens were placed upon lots of logs hauled by [illegible] farmers who worked for the firm and had not received their pay. Mr Walker was arrested in the town of Perry, last Wednesday night as an absconding debtor at the instance of [illegible] Maybery, traveling salesman for Shaw Goding & Co. The failure has a dark side to it which was made to look still darker by the sudden departure of Walker and his subsequent arrest. The firm has appeared to be doing a large and, according to their own figures a profitable business. We understand the only reason they assign is a shrinkage in lumber scale—a reason which will scarcely be accepted as satisfactory by an incredulous public

Cumberland

The Cumberland county jail at Portland was the scene of a very pleasant silver wedding June 23. Many relatives and friends of Mr Sawyer, the Sheriff, and Mrs Sawyer, who presides ably over that institution gathered from Boston and Portland to celebrate the 25th anniversary of their marriage. Rev Mr Redlon, of Hallowell brother of Mrs Sawyer who united them in marriage 25 years ago was present and made an appropriate address and presented numerous beautiful and valuable gifts of silver. An excellent entertainment was furnished, the company by Mr and Mrs Sawyer and all went merry and joyous as of Auld Lang Syne.

Kennebec

The next quarterly session of the Kennebec county reform clubs will convene at Gardiner, Wednesday, July 6th, at 10 A. M. continuing throughout the day and evening. All members of reform clubs are cordially invited to be present. Free entertainment for all

Knox

The *Argus* says Deputy Sheriff S. McAllister of Rockland was arrested by the city Marshal Monday on a warrant issued by trial Justice Hicks charging him with negligently permitting a prisoner named Albert French held by the justice for larceny, to escape from the lockup. It is alleged that the deputy left the lockup doors open. McAllister waived an examination and was bound over to the September term of the Supreme Judicial Court. The penalty for the offence of which he is charged is two years imprisonment and $300 fine. Sheriff Spaulding has suspended McAllister from duty pending investigation

Oxford

The *Democrat* says that the entire block of farm buildings consisting of house, ell and barn of Charles M Walker at North Norway were entirely destroyed by fire Tuesday, June 21st. Also the barn of Jefferson Powers that stood near by. Fire was first discovered in the barn of Mr Walker. Most of the household furniture was saved. We learn that W's buildings were insured for $100 and Powers' barn for $400

Somerset

Mr Joshua Chick, of New Portland lost a valuable cow a few days since in a singular manner. The cow was feeding along a steep bank near a small brook in his pasture. The bank gave away suddenly and her head under a tree root in such a manner that she could not extricate herself and she was drowned

Washington

Ora Gillpatrick and two others of Danforth had quite an encounter with a bear that had been caught in a trap and one of them received quite a bad injury before the bear was killed

York

Sunday, the 26th inst, was observed at Old Orchard, as "All healing Day," and many went into the surf, notwithstanding the rain.——There was an amateur Pinafore performance in Varney's Hall, Saturday night.——The little Ferry Beach Railroad began running trains again Monday.——The Eastern Railroad's Old Orchard branch will be open to the public July 1st. The depot at the junction is nearly done, the one at this end is just begun. There is considerable grading yet to be done but with the large force of workmen the prospect is that by next Saturday, Old Orchard will have another railroad in running order.——The new Boston & Maine Railroad station, at the camp-ground is nearly completed

RACING

We have some doubts whether racing after the English fashion ever becomes a national sport in the United States, in spite of the fillip given to it by the successes of Iroquois and Foxhall. The object of the proposed race meeting by the Coney Island Jockey Club, with a prize of $25,000, is of course to create an American Derby, and such a race would undoubtedly draw an immense crowd, as well as encourage this form of racing. Rich men may also take pride and pleasure in running horses, and turf breeders accommodate them, but English racing was the outgrowth of, and is sustained by, the national custom of fox hunting. We have none of that here, except to a limited degree in the southern States but with us it is too ridiculously artificial to be kept up and cannot be popularized and [illegible] use of the horse is for trotting on the roads. In some sections of country riding is a custom and a necessity, and speed and style under the saddle therefore, of practical interest. But as soon as the roads are improved trotting comes into vogue and riding falls into disuse. Its revival in the Eastern States [illegible] and an exercise for the rich and an imitation of an English rather than the revival of an American habit. [illegible] is more natural, and, therefore trotting races are likely to be the most numerous and generally popular notwithstanding that they have not the inherent attractiveness of the contest of speed by contesting runners. There will doubtless be something [illegible] the number of running races but they will be more in fashion than generally popular, and the chances [illegible] will probably [illegible] on the Derby or Chantilly course. The genuine American sport may well count on his chief endeavors to get [illegible] seconds from the record [illegible] mile trots, and the great event [illegible] public interest will be when that is done [illegible] Derby [illegible] superior [illegible] and speed of the [illegible] value of the prizes to the [illegible]—*[illegible] Journal*

THURSDAY, JUNE 30, 1881.

EX-GOVERNOR DAVIS APPOINTED COLLECTOR.

A Washington despatch received yesterday afternoon announces the appointment of ex-Governor Daniel F. Davis, as Collector of Customs for this District in place of Gen. Joseph S. Smith, who was appointed by President Hayes in place of Collector Fox. Of course Gov. Davis is too well known in this region to require any introduction, and his ample qualifications for the place, in point of character, standing and ability no one will seek to question. As a staunch, working Republican and the standard-bearer of the party in its two most desperate struggles in this State, it has seemed fitting that his services should be recognized in some way by the National Administration, and his appointment to the Bangor Collectorship has not been unexpected.

The highly inflamed discussion of this matter in several of the Boston papers has caused some amusement here, as our community have not exhibited the slightest trace of the "excitement" so startlingly portrayed in those journals. Doubtless there are a few individuals who feel a special interest in the change, but our general public are not getting into a perspiration over it.

We are informed that Senator Hale when last here took measures to ascertain the wishes of our leading business men in regard to the Custom House and that he became convinced that the appointment of ex-Gov. Davis would be satisfactory. It is perfectly obvious—to any person this side of Boston and outside of the State Steal Fusion—that the people of Bangor have a right to demand that their wishes be considered in the filling of a Federal office at this port. If Senator Hale has misunderstood or misrepresented the wishes of our people he will be held accountable by his Republican constituents, and they will not require the assistance of any of the able journalists of other States or other parties in vindicating their rights.

There has been altogether too much simultaneous flap-doodle in outside newspapers about a matter not of "national importance" but of purely local concern.

A BUSINESS-LIKE ADMINISTRATION.

[From the N. Y. Tribune.]

While the factions rage, the Administration does its duty steadily and faithfully. The President and his associates pay no attention to the struggle in New York, because it is one which belongs to New York to settle. The President did not make the vacancies in the Senate, nor did he throw the control of that body into Democratic hands. If the people of this State are satisfied, he has no reason to be disturbed. If they wish to remain unrepresented, until the malcontent ex-Senators can elect themselves again, the Administration can patiently wait their pleasure. Meanwhile, it is doing its duty.

The Treasury Department is rapidly clearing away the last of the five and six per cent. bonds. Up to Saturday night, this Administration had succeeded in refunding $180,000,000 of the six per cents. and about $313,000,000 of the five per cents., and it expects by July 1st to have many millions more of the old bonds exchanged for the three and a half per cents. Already its operations have saved money for the taxpayers at the rate of nearly $10,000,000 yearly, and the redemption of six per cent. bonds which begins this week, and of five per cent bonds which will begin next month, will save a large sum besides. Meanwhile the Department has been purged of frauds which, though petty in details are by no means insignificant in the aggregate.

The State Department has been doing its duty not less faithfully. Already obstacles to the exportation of products of this country have been removed in more than one foreign land by the earnest representations made on behalf of the United States, while other foreign governments have the same protest under consideration. The rights of American citizenship have been asserted with new vigor, and the commercial treaties of the United States with foreign nations are being carefully investigated, with a view of obtaining useful modifications. Details of improvement in the conduct of the Interior Department have been recorded in daily dispatches, and there is promise of important changes in that quarter also. The Post Office Department has been almost revolutionized already, for it evidently was in especial need of reconstruction. The exposure of frauds, and the revocation of fraudulent contracts, have already saved about $1,000,000 yearly for the Government, but this is only a small part of the advantages which a thorough and faithful Administration may be expected to secure in this Department alone. In other Departments, also, the spirit of reform has been felt, and in proportion to the defects discovered have been the improvements made or proposed.

While the Administration goes on thus faithfully and patiently, doing its work in each branch with unusual skill and integrity, the representatives of the people of this State are asked to make war upon the President, and to embarrass him as far as they can, because he has not seen fit to become a mere tool of a small faction in one State. The question rests with the people. They will decide whether, on the whole, the work of the Administration deserves their rebuke or hostility. Their instructions to their representatives at Albany ought to have effect. But this must be said, meanwhile, that the country has never had an Administration which has accomplished on the whole as much for the country within four months of power as has been accomplished by the Administration of President Garfield since March 4. It may make serious mistakes hereafter. But thus far it has served the people honorably, steadfastly, and with rare courage and ability. If it does not deserve hearty support, can the people hope to choose a better?

THE CHICAGO CONVENTION.

[From the Chicago Tribune, June 21.]

Before the Maine excursionists departed for the East, yesterday, they held a meeting in the Egyptian parlor, Palmer House. The Hon. Hannibal Hamlin was called to the chair, and Bion Bradbury offered the following resolutions, which were unanimously adopted with enthusiastic applause: "Resolved, That the guests from Maine and Massachusetts of the Society of the Sons of the State of Maine, tender their most hearty and grateful thanks to the Association, collectively and individually, for the unbounded hospitality extended them, and for the unremitting and eminently successful efforts to make their visit to the Queen City of the West an enjoyable one. Resolved, That they beg to assure Mr. Potter Palmer that his princely hospitality in inviting them to remain several days longer, as his personal guests, after their arrangements were made to return, and urged upon them with a force they were unable to resist, has made an impression upon them which time nor distance can ever efface."

PERSONAL AND MISCELLANEOUS.

The real estate market in Boston is booming.

Gov. Wiltz, of Louisiana, who has long been ill, is slowly recovering his health.

Gen. Weaver is trying to resurrect the rag baby, but can't.

Gov. Long, of Massachusetts, is a candidate for the third term.

The average annual salary of a country postman in France is 763 francs.

John C. Breckinridge is to have a $12,000 monument in Louisville, Ky.

It is said that eight more mills are to be built at Fall River, Mass., this year.

The late Senator Carpenter, of Wisconsin, is to have a monument, either at Madison or Wisconsin.

Judge William L. Foster, of the Supreme Court of New Hampshire has tendered his resignation, to take effect July 1.

The Syracuse *Courier* thinks it is full time for the rich county of Onondaga to move for the erection of a soldiers' monument.

Geo. M. Jewett, son of the president of the Erie road, is being pushed as the candidate of the young democracy of Ohio for governor.

It has been decided by the chief justice of the Wyoming supreme court, that a Chinaman may legally marry a white woman.

The sale of the famous "double collection" of furniture, bric-a-brac, porcelains, etc., in Paris, continued six days, and realized 2,010,031 francs.

Griscom's fast at Chicago has been a poor speculation. But little interest has been manifested in the affair, and while expenses are heavy, the receipts from admission fees have been small. He now drinks forty-four ounces of water a day.

A hotel for hogs is a New York scheme which is about to be realized. A huge building, to cost $60,000, is to be built to receive hogs from the West, and will contain quarters on two floors for their comfort while awaiting slaughter.

William Staughton Chase, a graduate of Brown University in the class of 1842, died in Paris, last Tuesday. He was a professor in Richmond College until the breaking out of the civil war; since that time he has been engaged in literary work.

It is reported in Baltimore that one Joseph Podbyst, an ex-United States soldier, who has fallen heir to a large fortune in Bohemia by the death of his father, has been found in New York reduced to the condition of pauper or tramp, and wandering about the streets of the great metropolis.

The famous steamship Great Eastern will be sold at public auction in October, unless otherwise disposed of at private sale. If the present tide of immigration to this country continues, this large vessel might be refitted as a passenger steamer, and serve a most useful purpose in transporting immigrants across the Atlantic ferry.

The report of the Registrar General for 1879 shows that early marriages are not so much in favor in England as they were formerly. The average marrying age of men is now about twenty-eight, and that of women about twenty-six. The report shows educational improvement. Formerly a large percentage of brides and bridegrooms were unable to sign the register, but there has been a great improvement in this respect.

The Grand Prix de Paris was established in 1863 by the Duc de Morny, in order to give English and other foreign horses an opportunity for revenge, as all other French races were for French horses only, while the English races were open to the world. It is run for on Sundays, because that is the only day when all Paris can attend. Seven English, nine French, one Hungarian and one American horse have taken the grand prize.

Some ingenious rogues last year chartered the steamer Ferret, at Glasgow, by means of bills which subsequently proved to be worthless. The steamer was taken to Cardiff, where she shipped a new crew, and was dispatched to Brazil, where she took in a cargo of coffee. Changing her name twice, she proceeded to the Cape, where her cargo was sold for £13,000. Thence she proceeded to the Mauritius, and afterwards to Melbourne. More than once after coming into possession of her new owners she had been re-christened, and now was known as the India. She had also been painted afresh, so that, between her new name and altered appearance, her identity had been rendered difficult. Something had gone wrong when she reached Melbourne and her reputed owner and captain disappeared. Then the crew exposed the fraud that had been practiced and the vessel was seized by the authorities.

The growing scarcity and steadily increasing price of black walnut has naturally excited the apprehension of lumber merchants and furniture dealers throughout the country. The mania for black walnut furniture of every conceivable description which has existed for the last twenty years, has produced the natural result of making the raw material comparatively scarce and expensive. It is confidently predicted that the price of black walnut will fully equal that of mahogany. If the scarcity and increased cost of this sombre wood, which greets the eye in every nook and corner of the modern house, have the effect to introduce the use of more attractive woods, such as mahogany, oak, cherry, maple or ash, into our domestic furniture and adornments, the public need not lament the wholesale destruction of black walnut timber which has prevailed since the war.

IMPORTANT TO TRAVELERS. Judge Walton has just tendered a decision that will interest every one who buys a railway ticket in Maine, and intends to stop over on that ticket. The Legislature of Maine passed an act some time ago that a railway ticket was good for six years. Consequently parties would go to Boston, or Montreal, or St. Johnsbury on a ticket, and stop over at some way station a day or more, if so inclined. Judge Walton's decision will stop all that if the laws of New Hampshire, Vermont, or Massachusetts should not accord with that of Maine.

In No. 27 (law docket of 1880) Carpenter vs. Grand Trunk Railway Co., the clerk of the western district law court will please enter "Exceptions sustained, new trial granted," and certify the decision as requested by law.

C. W. WALTON, J. S. J. C.

Rescript.—It is the opinion of the Court that the statute of 1871 C. 223, which declares that the holder of a railroad ticket shall have the right to stop over at any of the stations along the line of the road and that his ticket shall be good for a passage for six years from the time it is first used, applies only to transportation within the territorial limits of this State; that the statute has no force beyond the limits of the State and consequently does not apply to a ticket from Portland to Montreal while the ticket is being used beyond the limits of this State; that while it is being used in New Hampshire, Vermont or Canada the right of the passenger will be governed and controlled by the laws of those places and not by the laws of Maine; that in the absence of proof to the contrary, the law of these places will be presumed to be the same as the common law of Maine and not the same as the act above cited.

AN OPEN LETTER —FROM— W. F. SHAW, —TO— HIS PATRONS AND THE PUBLIC.

The undersigned, dealer in Boots and Shoes, Hats and Caps, Gloves, Umbrellas, etc., etc., at NO. 20 MAIN STREET, would most respectfully announce to his patrons and the public generally, that on and after July 1st, the credit system at his establishment will be abolished and no sales will be made except strictly for cash.

This new departure is not made without having been carefully considered. The undersigned is aware that several of his best customers who are persons of means and whose word is as good as the gold, may probably feel offended, yet a little reflection will convince them that they will be benefited by the change. It is the earnest desire and honest determination of the undersigned to give to his customers the *best* goods at the *lowest possible prices.* This can only be accomplished by the adoption of a cash system. By this means the salaries of book-keepers and persons to make collections are saved, and the undersigned, with the cash in hand, will be enabled to take advantage of the market and thus secure bargains which will benefit his patrons. His expenses will be greatly reduced, no bad bills will be incurred, he will not then as now be obliged to carry on his books a large amount of indebtedness to the concern, on which, of course, there is no interest, and some of which cannot be collected. It will cost the undersigned a painful effort to refuse credit to his true and tried friends, but the rule once adopted, must be rigidly enforced. He sincerely believes that every reflecting person will approve of his course, and he earnestly hopes that his patrons may see that the adoption of a cash system must be mutually beneficial. He also desires to assure his customers, one and all, that they will ever receive the most courteous treatment, and pledges them that they shall receive the full benefit arising from the change, guaranteeing to them better bargains than would be possible to obtain under any other system of conducting business.

Thanking his patrons for past favors and soliciting a continuance of the same, the undersigned is, very respectfully, the public's obedient servant,

W. F. SHAW.

BATES COLLEGE.

Commencement Week—Meeting of the Corporation.

LEWISTON, June 29. The annual meeting of the Corporation of Bates College was held at nine o'clock Wednesday. President Cheney in his annual report referred to the change of the Maine State Seminary to Bates College, on the promise of the late B. E. Bates, that funds should be furnished to make it a success, besides what he had paid. Mr. Bates had subscribed $100,000 on condition that a like sum should be raised, and the condition had been faithfully met. If the estate of Mr. Bates be so small as not to leave his family a handsome support, then the college should surrender every dollar of its claim. On the other hand, if the estate be solvent, with a large surplus, then the college is justly entitled to at least a fair percentage. He hoped the matter would be privately adjusted, so there might be no necessity of presenting it to a jury. President Cheney reported that the floating debt of the college had been extinguished by drawing from the endowment fund. He recommends the raising of $100,000 additional.

Hon. J. L. H. Cobb was elected member of the Board of Fellows to fill a vacancy, and G. C. Emery and Josiah Chase to fill a vacancy in the Board of Overseers.

The anniversary exercises of the Theological school occurred this afternoon.

The literary exercises that were to be [illegible] in the evening have been postponed on account of illness of Hon. L. H. Hutchinson, orator.

COLBY UNIVERSITY.

Commencement Exercises.

WATERVILLE, June 29. The Trustees of the Colby University met this morning at 9 o'clock and elected the following named as trustees to fill vacancies caused by death and resignations:

Rev. F. W. Bakeman, of Auburn, Me., H. S. Burrage, of Portland, Wm. H. Alden and Robert O. Fuller.

Judge Percival Bonney, of Portland, was elected Treasurer. The degree of L. D. was conferred upon Rev. Henry K. Trask, of Bridgeton, N. J.; that of D. D. upon Geo. B. Gow, of Brattleboro, Vt., and upon Rev. Comfort E. Barrows, of Newport, R. I., and the degree of Bachelor of Science upon S. K. Hitchings, of Waterville.

The Trustees voted $200 for the purpose of binding books in the library and $400 to purchase new volumes.

It was announced that Rev. J. Warren Merrill has devoted $1000 to the prize fund to be used for the next two years; also that $30,000 have been raised to anticipate the income of the Colby fund due two years hence.

D. W. Small, Prof. in History, who has been studying for two years in Europe, will return and occupy that chair at the fall term.

The University is in a flourishing condition and its friends are very hopeful for the future.

President Robins' health is so far restored that he will assume his duties next term.

The commencement exercises were held in the Baptist Church at 11 A. M. The class, consisting of thirty-four, received diplomas at the close of the orations by nine young men and one lady. The class is the largest ever graduated here and has among its members men of brains and good common sense and the speeches today left that impression upon the audience.

After conferring the degrees on the graduating class, A. M. in the course was conferred on W. I. Davis, A. C. Gorhill, of Waterville, W. C. Burnham, St. John, N. B. At 2:30 P. M., dinner was served at Memorial Hall. Several lady graduates were present and other distinguished visitors. Eloquent and able speeches were made. That of Prof. S. K. Smith, acting President, for the past year, elicited the most long-continued applause.

The reception took place at President Robins' this evening and the final exercises terminated with a concert and dance at the hall. The attendance this year has been somewhat lighter than usual, owing to the earlier date of holding the exercises, but the friends of the College are enthusiastic and feel assured that in the future Colby will neither go back nor lag in the rear. The incoming Freshman class will number 50 or more. The Junior prizes were awarded, first to W. C. Crawford, Belfast; second to C. A. True, Portland.

WESTBROOK SEMINARY.

Commencement Exercises.

PORTLAND, June 29. The Commencement exercises of Westbrook Seminary were held to-day. The Commencement dinner was eaten at one o'clock. Fuller, Bath; "The Old Students," telegram from A. B. Otis, Esq., of Boston; and a letter from Mr. Ginn, of Boston, author of Ginn's Latin text books; "Our Colleges, and Seminaries," Rev. Elmer H. Capen, D. D., President of Tufts College; "Religion and Science," Sullivan C. Andrews, Esq., Portland. Remarks were also made by Rev. Dr. Quinby, of Augusta. At three o'clock this afternoon the fiftieth anniversary of the Alumni Association was held. The exercises consisted of music, prayer and a historical address by Hon. Israel Washburn, Jr.

THE CONTEST IN ALBANY.

YESTERDAY'S BALLOT

A Proposition from the Conklingites Rejected.

ALBANY, June 29. The Administration supporters are firm in rejecting the proposition of the Stalwarts to elect Conkling and Depew for the short and long term respectively. They say that they would prefer to accept Platt, at the same time they see no way out of the deadlock, owing to the firmness of Conkling's supporters who evince no disposition to leave him.

The Conkling Vacancy.

The joint convention met at noon, Lieut. Gov. Hoskins presiding, and voted to fill the short term vacancy.

An Explanation from Foster.

When the name of Senator Foster was called he said that as his vote had been called into question in the Senate by the Senator form the 25th, he deemed it proper to make an explanation of his voting. He had been actuated by but one consideration and that was to elect two Senators in the place of the two resigned. So far as he could learn the views of his constituency he believed that they did not desire a return of the two resigned Senators. With that view he had first voted for candidates known as half-breed and Stalwart, then for two Stalwarts. This week he had determined to vote for two Stalwarts and if no election was secured he would then vote for adjournment. He then explained his vote for Lt. Gov. Hoskins whose course in public life he eulogized and concluded by voting for Hoskins.

McCarthy, when his name was called, said that he had simply alluded to the gentleman's voting for Hoskins when it was known that he was paired with Senator Astor, although the Senator (Foster) said he was not paired on Hoskins.

The Platt Vacancy.

The Convention then voted to fill the long term.

Sharpe offered a resolution that when voting hereafter, on asking to be excused members of the Senate have unlimited time and members of the House be limited to two minutes each. He said the only object he had in view was to establish a rule. He asked that the resolution lie on the table till to-morrow, which was agreed to.

Sharpe then moved an adjournment, which was carried by 81 to 66.

No Change of Action.

ALBANY, June 29. The Bribery Investigating Committee met this afternoon, but took no action upon the report. The usual conferences were held to-night, but no change of action was recommended. There is a growing desire for adjournment among the half breeds.

SEVERE STORM IN OHIO.

Buildings Torn from Their Foundation

IN CINCINNATI BY THE BURSTING OF A RESERVOIR.

Damage $150,000.

CINCINNATI, June 29. A wide belt of country has been visited by a storm and crops, especially wheat, seriously damaged. The reservoir on Price's Hill, in extreme western part of the city, burst at 11 o'clock to-night and the water ran with such force as to move the whole structure, which is of iron, 200 feet from its position. It is an iron tank 40 feet high with a diameter of 100 feet and was full except 8 feet. Several houses in the vicinity were washed from their foundations and other serious damage done. The damage is roughly estimated at $150,000. Fortunately the water escaped in a place not thickly inhabited. No lives were lost.

NEW HAMPSHIRE

Visited by a Destructive Tornado.

A Large Amount of Property Damaged.

FRANKLIN, June 29. A destructive tornado fell upon this village yesterday afternoon about four o'clock, taking a southerly direction. It was accompanied by rain, hail, thunder and lightning. The hail stones, many more than an inch in diameter, fell in torrents and spread ruin everywhere.

Half of the houses in town had their windows shattered, multitudes of chimneys were swept down, trees were uprooted and gardens ruined. The rain seemed to have been confined to Franklin and the valley for a mile or two on each side of the town. The path of the tornado, was more than two miles wide.

Many houses were severely damaged, the Methodist church of West Village among them, by the floods of rain and hail which poured into them through the shattered windows. A large two story house, frame barn and shed, belonging to David E. Brown, was blown down and Geo. H. Drake's new house was lifted and twitched several feet from the foundation, leaving it a total wreck. The freight cars at the depot of the Northern Railroad were blown from the track.

Great damage was done through the town by the furious sweep of the waters, though the continuance of the torrent was scarcely 15 minutes.

At 11 o'clock last night the tornado was succeeded by a furious storm accompanied by heavy and violent thunder and lightning. The rain fell in a delugo for two hours.

IOWA.

Republican State Convention.

DES MOINES, June 29. The Republican State Convention met this morning, 1,010 delegates being present. Hon. James Wilson was chosen temporary chairman. During the twelfth ballot a stampede to Sherman occurred and amid great excitement the chairman announced that Sherman had received 513 votes, three more than a majority. A tumult ensued and a verification of the ballot was demanded, when the count was found to stand Sherman 509, one less than a majority; Larrabee, 450; Harlan, 39; Campbell, 21. Thereupon Col. Henderson, on behalf of the supporters of Larrabee, moved that Sherman be declared the nominee by acclamation, and the motion was adopted. O. H. Manning, of Carroll, was nominated for Lieut. Governor and Austin Adams, of Dubuque, for Supreme Judge.

ILLINOIS.

The Saengerfest.

CHICAGO, June 29. The city is in holiday attire in honor of the convention of the North American Saengerfest. The first grand concert in the series attracted an audience of 8000. The south half of the building used for the Republican convention last year has been converted into a grand music hall. The programme for the evening concert consisted of scenes from Max Bruchs' Odyssius. To-morrow a full chorus of 2000 voices will be heard.

The First Baptist Society and Sabbath School will make an excursion to Islesboro to-morrow, July 1st, on steamer City of Bangor, leaving her wharf at eight o'clock.

J. C. Norton Co. advertise a great variety of picnic goods. The firm will use great care in packing picnic and seashore goods, so as to ensure their safe delivery.

Remember the excursion to-morrow, July 1st, to Sussex, N. B., where a grand military review will be held, the occasion being Dominion Day. See advertisement.

The Bucksport & Bangor Railroad will sell excursion tickets on the Fourth from all stations to Bangor at less than half fare. See advertisement for running of trains.

The omnibus will hereafter leave West Market square for Mount Hope at 2:30 P. M., instead of 2:15, as heretofore, in order to accommodate the patrons of the West Side barges.

The Woman's Christian Temperance Union will meet at their headquarters, 32 Central street, this afternoon at 3 o'clock. Prayer meeting at four, to which all interested are invited.

MONSON. Our correspondent "S" writes: H. A. Hildreth of Lowell, Mass., one of the owners of the Monson Pond Slate quarry arrived in town to-day with ten Swedes who are to labor in his quarry. Others will come here as soon as dwelling houses can be erected for their accommodation.

Danforth's barge, containing Andrews' orchestra, returning from Orono late last night, sank into the soft earth covering the gas main near Mr. Carr's residence on State street, and was capsized. The vehicle was left there and the party had to walk home. Lights should be placed there during the night.

Rev. Geo. B. Ilsley will be installed as pastor of the Columbia street Baptist church this evening at half-past seven o'clock. The sermon will be by Rev. F. W. Bakeman, of Auburn. Several other ministers from different parts of the State will also participate. The Penobscot Quartette will furnish music.

We were shown yesterday a beautiful crescent pin of gold, with a setting of seven diamonds. It was made at Danforth's, by Mr. Fred Butters, for a Boston party. It was valued at $100.

Two of Maine's daughters—Miss Clara Louise Teague of Caribou, and Miss Gertrude Burt Harlow, a native of Portland—have recently graduated with high honors from Cornell University, class of '81, both being orators at Commencement.

The Committee on Procession, consisting of Messrs. A. D. Farnham, C. W. Roberts, W. Z. Clayton, R. G. Rollins, C. V. Crossman, Frank A. Owen, Fred Cummings and James E. Rogers, will meet at the Common Council Room this evening.

PROBABLY FATAL ACCIDENT. At the Northport campground, on the 28th inst. Mr. Isley Martin, of Union, a man about 42 years of age, fell from the roof of the Union cottage, and was struck upon the head by a piece of timber falling from the same roof. He was dangerously injured but still alive on the following morning.

A little son of Nicholas Varney of Jackson was severely, but it is thought not fatally, shot in the neck and face by the accidental discharge of a gun with which he and his brother were playing Sunday morning. The parents were away at the time and the boys, who are about five and eight years old, alone with the gun.

The steamer Ralph Ross or Howell will commence the regular season trips to Fort Point and Northport on Saturday, July July 2d, leaving Steamboat wharf at 4 P. M., touching at all the landings on the river, and every Saturday thereafter during the pleasure season. Returning will leave Northport every Monday at 6 A. M.

THE BAND TOURNAMENT. The coming Band tournament to take place at Lake Maranocook on July 5th, is exciting much interest. It will be a novel spectacle in Maine to see fifty bands of musicians, in all some 1100 men, contesting for the $470 to be offered in prizes of various amounts. Besides the musical attractions of the day there will be dancing at the pavilion, swinging and boating. The fare for the round trip from this city will be but $1.25. See advertisement.

THE MAIL ROUTES. The new contracts on the Star Routes will commence on the first of next month. Mr. F. O. Beal, of the Bangor House, will carry the Ellsworth and Bar Harbor; Mr. Moulton, who for four years has carried the Aurora mail, will now take the Dixmont and Unity route, and Mr. Clark, of Eddington, will take the Aurora route; Mr. Fred Nichols, who has had the Belfast route, will take the Monroe; Mr. Lemuel Nichols has the Exeter route; and Mr. E. H. Hunting, the old contractor will continue on the Corinth and Charleston route. The Belfast route has no sub-contractor as yet.

STEAM GRIST MILL AT BAR HARBOR. The *Tourist* says: "Messrs. Morrill & Palmer of Bangor are building a steam grist mill at Rodick's wharf. It is to be thirty by fifty feet, and will have a capacity of fifty bushels an hour. There is something of prophecy in the erection of this mill. It is as the tiny shoot that becomes the rank corn; it is as a little speck in the horizon, the first seen sail of an approaching fleet; it is as the first booming of cannon;—this is only a mill, but it is the foretelling of greater things for the town. The building of Mr. Hardy's house, on the bluff near the wharf, was of no great moment simply of itself, but it was as the germ of the present growing plant, a city of summer cottages. The building of this mill foretells the growing commercial importance of the town."

THORNDIKE ITEMS. Our correspondent "F" writes: Crops are very backward. The hay crops will be light in this vicinity.——The crows are very troublesome, and between them and the bugs the potatoes are faring hard. Not a large acreage is planted this season but many are using Paris Green for the bugs.——There are two Sabbath Schools sustained in this town, one at the station and one at East Thorndike, which are flourishing.——The Good Templars lodges are prospering. Bethel lodge at East Thorndike now numbers fifty-eight members. They have recently purchased an organ for use in their lodge room.——The prospect and Unity F. W. B. quarterly meeting held at the old Centre House in Thorndike, the 25th and 26th, was largely attended. It was said to be the largest that had gathered there upon similar occasions since March.

SPRUCE. The following from the New York *Real Estate Record*, is of importance to many of our readers: "Spruce of good quality can find an outlet for all manufacturers appear ready to offer, and no very heavy concession on price would be necessary, except under an unusual liberal accumulation of cargoes. Shippers, however, who send in all sorts of cuts and assortments with the schedules containing a large percentage of inferior stuff, and expect to find buyers ready to grab the offering as soon as made, will be sadly disappointed. Use can be found for almost anything merchantable, on this market, to be sure, but an undesirable article will only be handled at a just valuation, especially at a season when sources of supply are all open, and there is no necessity for the majority of buyers to take just such stock as they can get."

Decisions in Law.

The following decision have been received by Ruel Smith, Esq., Clerk of the Eastern Law District:

PENOBSCOT COUNTY CASE.

Nathan Wyman, Executor, vs. Geo. F. Fitzgerald & al. "Judgment for the defendant Joseph H. Fitzgerald."
J. Crosby for Plff.
T. H. B. Pierce for Joseph H. Fitzgerald.

Rescript—Upon the evidence reported, the Court decides that as to the defendant Joseph H. Fitzgerald, the note declared on was, at the date of the writ, barred by the statute of limitations.

HANCOCK COUNTY CASE.

Mary T. Richardson vs. John Richardson. "Plaintiff nonsuit."

Rescript—The reservation of the granite along the front of the lot assigned to the defendant, from the division, affords a better explanation of the difficulties which the evidence presents than any other theory.

The plaintiff, as tenant for life of an undivided fourth thereof, had a right to her share of the profits accruing from the products of such opened quarry.

But, on grounds which are fully stated in the opinion, Held, that such share cannot be recovered in an action of assumpsit, for rents received during a period when the plaintiff was actually disseized.

CLASS DAY EXERCISES.

A Proud Day for the College and the Graduates.

Despite the dripping skies, yesterday, at the hour designated for the beginning of the State College Commencement exercises, the Town Hall at Orono, in which they were held, was filled with a highly intellectual and appreciative assemblage, of which the proud parents and friends of the graduates formed a respectable portion.

The hall was beautifully festooned and decorated with flowers, evergreens and bunting. In the rear of the stage upon the wall was a large four-leafed clover in evergreen bearing on its surface in gilt the figures '81. Beneath this, in golden letters upon an evergreen background, was the class motto, "Progress." Upon the right of the stage was a massive bouquet of choice flowers; upon the left was an easel and palette of evergreen and flowers. Pendant from the centre of the ceiling was an evergreen horse shoe, with the words "good luck" wrought in daisies. Seated upon the platform were His Excellency the Governor and Staff, members of the Council, the President of the College, the Board of Trustees, members of the Faculty, Hon. Joseph O. Smith, Secretary of State, and others. Between the stage and the audience were grouped the members of Andrews' Orchestra, M. H. Andrews, leader.

Promptly at half-past nine the swelling notes of the orchestra announced, that the long-anticipated exercises had commenced. A fervent prayer was offered by Rev. Mr. Hanscom, invoking the blessings of God upon the institution and its members, and asking His guidance for all.

The exercises, which were of the deepest interest throughout, and mostly of a very high order, proceeded in accordance with the following programme:

CONFERRING THE DEGREES.

Prof. Fernald, the President of the College, proceeded to confer the degrees, as follows: Upon Henry Harris Andrews, Horace Flanders McIntyre, and Harold Mason Plaisted, the degree of Bachelor of Mechanical Engineers; upon Charles Henry Fogg, Aldana Theodore Ingalls, Charles Lincoln Moor, Benjamin Franklin Murray, Edwin Winthrop Osborn, Levi Augustus Wyman, and Walter Adelbert White, degree of Bachelor of Civil Engineers; upon Roscoe Loring Smith, Frank Swan Wade and John Barrows Wilson, of the course in Agriculture, the degree of Bachelor of Science; upon Edward Holyoke Farrington and Oscar Leroy Pease, of the course in Chemistry, the degree of Bachelor of Science; upon Henry William Brown, Clara Louise Buck, Fannie Eliza Colburn, Oliver Cummings Farrington, Clara Alice Libby, May Lillian Ring, and Alice Isabel Ring, of the course in Science and Literature, the degree of Bachelor of Science.

ADVANCED DEGREES.

For acquirements and proficiency in theoretical and practical mechanics, upon Charles H. Benjamin, the degree of Mechanical Engineer.

In consideration of scientific study and research and of the presentation of a thesis entitled "The diazoic derivative of hydrazo phenolene sulphonic and its compounds," to Walter Balentine is awarded the degree of Master of Science.

PRESENTING THE DIPLOMAS.

His Excellency the Governor, after briefly addressing them, presented the graduates, as their several names were called by the President, with their diplomas.

AWARDING THE PRIZES.

After remarks pertinent to the matter of awarding prizes, President Fernald read the following:

BANGOR, Me., June 25, 1881.

Mr. M. C. Fernald, President of Maine State College:

SIR: Ex-Governor Davis having declined to serve upon the committee selected by the Junior Class to pass upon the merits of the several papers submitted by them, the duty of making the decision has fallen upon Mrs. Mace and myself.

We have separately and together carefully read and examined them all, and award the preference to the article entitled "Darwinism." [By Alonzo L. Hurd, Brownfield.]

We further agree that honorable mention should be made of the two articles, in their order, severally entitled "The growth of American Literature" and "Star Routes."

We further desire to add that we found no article, among all submitted, that would not be creditable to persons much older than such as are ordinarily found in the Junior classes of American colleges.

For the Committee,
Very Respectfully,
LEWIS BARKER.

The committee to award the prize for the Sophomore declamation have found themselves greatly embarrassed in determining to whom the same shall be given, by reason of the marked and nearly evenly balanced excellence of several competitors; but, after careful consideration do award the same to Levi William Taylor, of Jay.

The committee regret that the limitations of the award do not admit of a more general recognition of merit. They deem it, however, a matter of exceptional justice to mention the recitation by Jennie Chase Michaels [of Stillwater], as exhibiting a refined and intelligent conception of the subject and marked elocutionary power.

CHAS. A. BAILEY,
C. A. BOUTELLE,
SAMUEL LIBBEY.

Orono, June 29, 1881.

THE ALUMNI DINNER.

Shortly after one o'clock a procession was formed in the hall, and headed by a band of music, marched into the spacious dining room of the Orono House, where five long tables were spread, laden with a fine display of most appetizing viands. At the first table there were seated the Governor and staff, Col. Francis Roble, J. T. Hinckley, R. L. Bowers and S. W. Campbell, of the Council, the President of the College, the Faculty, and members of the Board of Trustees, and several ladies. The second table was largely occupied by invited guests; the remaining tables were occupied by the graduates and the alumni. After Divine blessing had been invoked by Rev. W. F. Lovejoy, the company proceeded to a vigorous discussion of the tempting edibles spread before them. After nearly an hour had been spent in this very gratifying exercise, President Fernald announced that the time had arrived for the commencement of the intellectual feast. In a brief but able speech, the President said that the great need of the institution had been and would continue to be—until supplied—more money. He looked to the State,—to the alumni,—to several sources,—for the remedy for the difficulties under which the institution now labored; from some source means must be secured. He welcomed the guests in fitting terms.

Governor Plaisted was then introduced. Said he was a believer in the State College; believed in the institution as in no other in Maine. Blot out this and there's nothing to take its place—no place where boys from the farm can come and acquire a college education. Believed in a college course. A man who has the pluck to go through a four years' course will succeed in almost anything.

Col. Roble, of the Governor's Council, was introduced. He had felt the deepest interest in this institution. On all occasions—here and elsewhere—he had ever spoken in favor of the State College. This is an agricultural—a mechanical college—a fact which many are apt to forget when they leave the institution. If any avocation—any position in life—is desirable it should be the very thing for which this college was instituted. The majority of truly great men came from the farm, and they speak of the happiest portion of their lives as being during the days when they were engaged in agriculture.

Hon. Mr. Powers asked to be excused.

Hon. Ephraim Flint of Dover, was called, but it was found he had retired from the room.

Hon. Mr. Thing of Mt. Vernon, said he was a granger; the mission of the granger was to develop the coming man. Thought the college was doing that.

Here Prof. Fernald said that although not as much had been done for the college since the last commencement as had been hoped, yet it must be very gratifying to the alumni to learn that their long-tried friend ex-Gov. Coburn had put his name on paper for $10,000 for the benefit of the college. He believed others would follow and that the fund which they are seeking—$100,000—would yet be raised. This announcement was greeted with prolonged applause.

Mr. Reed, class of '73, was called upon. He believed there was no other institution for which the graduates feel so strong an affection as for this. It was started as an institution of learning for the sons of farmers; but the majority of the early students were from other walks in life. The college had labored under great disadvantages. He spoke of the necessity of such a college. The State cannot fail to sustain it—it could not afford to let it go down. It would become a power for good and a credit to the State.

Mr. Haynes, class of '76, believed firmly in the college; it fits a man better for any profession—for any calling—than any college devoted to the classics. The mechanic arts was tagged on to agriculture in this college, but that fact seems to be overlooked. Hundreds of its graduates are constructing whole sections of railroads in the West, but their influence for this college is not felt. The idea that the State of Maine can't support a college of this kind as well as the Baptists, the Methodists, the Congregationalists and other denominations can support their churches is a heathenish one.

Deacon Farrington, a former member of the Faculty, was glad of the opportunity to congratulate the college on its success. He had learned to love it, to revere it. The opposition to the college in some quarters is the result of ignorance of its usefulness.

Mr. Boardman of the *Home Farm*, was introduced as a member of the press. He congratulated the President upon the success attending his efforts. Spoke of his love for the college and his faith in its ultimate prosperity. He closed by saying that Mr. Burr of the Whig, who was present, would finish his speech.

Mr. B. A. Burr said that it was unfortunate for him that his partner, who was the orator of the firm, was not present. He felt sometimes, when called upon to speak that there was an unequal distribution of brains. He was glad, however, of the opportunity to speak a word in favor of the college. Had noticed usually at Commencement exercises that the girls excelled, but that was not the case on the present occasion, for the boys had all done so well that it would be impossible to be excelled, but the girls had proved themselves their equals. Spoke warmly for the college, eulogized the generosity of such men as ex-Gov. Coburn, and said that he felt that many members of the Legislature in their arguments against the college only showed by the display of their ignorance the dire necessity for such an institution.

The President then called upon Paul R. Seavey, who responded by saying that he was not an alumnus of this college, having graduated at a town school in the village of Stetson. Spoke of the privileges enjoyed by the boys of to-day. Believed that a thorough practical education such as was received at this institution was of vastly greater importance to the student than a superficial knowledge of the dead languages. A graduate of this college went forth better prepared to battle with the world, than is the case with graduates from most other institutions of learning. He spoke warmly of its worth, its usefulness, and condemned the spigot economy that would paralyze the efforts of the friends of education, and which, if carried to extreme limits, would throw the mantle of ignorance and superstition over the intellectual powers that would otherwise be brightly developed.

The Rev. Mr. Lovejoy spoke briefly and to the point. He had been greatly interested in the exercises of the day. Felt that the college must and would be sustained, and believed that the $100,000 would be raised.

Hon. Lyndon Oak, one of the Board of Trustees, spoke vigorously for the college, though briefly.

Mr. Gilbert, also a member of the Board, was here as a farmer; wish to speak of the position of the farmers toward this college; was sorry that in some instances they were open to criticism, but the lack of faith in the minds of the farmers was because a proof of the worth of the college in the early days was not forthcoming. The institution had for a time groped in darkness and had many mistakes, but they have been corrected. When presented in its proper light the farmers will spring to its support; there is an undercurrent which will soon come to the surface, and the college will then receive the support it deserves.

Prof. Hamlin thought it would only require about a thousand years to raise the fund among themselves. He spoke very briefly but felicitously.

Mr. Wilson, of Orono, thought it was unnecessary to say that he was a friend to the State College. He paid a high compliment to Prof. Fernald and his able corps of assistants. All that the farmers want is more light to become its warmest supporters. Maine, with "Dirigo" for her motto, had appropriated $3,500 for two years, while Michigan had appropriated a sum for a like purpose of considerably more than $100,000. He paid his respects to those politicians who were "good Lord and good devil." He closed with the saying of the woman of Gracchi, who, when asked where were her jewels, proudly said, as she pointed to her sons, "these are my jewels."

President Fernald said they had 150 jewels in the college.

The exercises were then closed and the company dispersed, feeling that the occasion had been one long to be remembered.

MEMBERS OF THE CLASS.

The following are the members of the class: Henry Harris Andrews, Norway; Henry William Brown, Calais; Clara Louise Buck, Stillwater; Fannie Eliza Colburn, Orono; Edward Holyoke Farrington, Portland; Oliver Cummings Farrington, Portland; Charles Henry Fogg, Biddeford; Aldana Theodore Ingalls, South Bridgton; Clara Alice Libby, Augusta. Horace Flanders McIntyer, Waldoborough; Charles Lincoln Moor, Hartland; Benjamin Franklin Murray, Solon; Edwin Winthrop Osborn, Pembroke; Oscar Leroy Pease, Stillwater; Harold Mason Plaisted, Bangor; Alice Isabel Ring, Orono; May Lillian Ring, Orono; Roscoe Loring Smith, East Orrington; Frank Swan Wade, Athens; Walter Adelbert White, Greenfield; John Barrows Wilson, Orono; Levi Augustus Wyman, Ellsworth.

THE "HISTORY."

The exercises were most heartily enjoyed by all. The papers were able productions and the music, by Andrews' Orchestra, was voted superb. From the "History" we learn that the whole number of students in the Freshman class at the time of entrance, four years ago, in the fall term, was 36, 7 being young ladies; the largest number was in the spring term of of 1878—51; graduated, 22, of which number five are ladies; one death in the class occurred in the fall of 1880—Loring T. Boynton; heaviest man, Wade; lightest, Farrington, 2d; largest size boot worn, No. 10; a number in the class are blessed with large feet; greatest eater, Osborne; last man up at night, Andrews; quietest man, Moor. As to future occupation, 2 study medicine, 2 practice law, 4 engage in business pursuits, 3 will enter the ministry, 6 will follow engineering, 1 will become a journalist and 1 is undecided. Five (ladies) will probably change their names; 16 smoke, 13 indulge in light beverages, 11 are teetotallers; 15 sometimes take the name of the Lord in vain. Politically they are divided as follows: 17 Republicans, 6 Democrats, 2 Greenbackers. Religious preferences—11 Congregationalists, 3 Methodists, 5 Universalists, 4 not decided, 1 a believer in Bob Ingersoll's creed. Co-education has been a success; intellectually the class will compare favorably with previous ones, while morally they are far above them; the members have always taken an active interest in college sports.

THE "PROPHECY."

The reading of the "Prophecy" as well as of the "History," created much merriment, as there is an understanding that all the jokes contained in them shall be taken in the proper spirit. In the "Prophecy" especially it should be borne in mind that everything "goes by contraries," as, for instance, it will be prophesied that the most gifted, the most studious, the most devotional in spirit, will be a circus clown or some equally absurd position in life. The reader of the "Prophecy" takes a leap into futurity and represents himself as travelling with a patent medicine, and he is congratulated by his friends on having risen so high. He then proceeds: Andrews (who is really a studious, devotionally inclined young man) becomes a ringmaster in a circus; his wife is Miss Colburn. Miss Buck is a lecturer on the Emancipation of Women. Brown went to Europe, studied art, became famous and painted for Sovereigns. [Mr. Brown is really a promising artist.] E. H. Farrington is master of a ship. O. H. Farrington, once studious, became dissipated, reformed and became a wealthy merchant in Chicago. Murray, while on a voyage to China, is wrecked; left America in consequence of being "cleaned out" in a base ball game on Indian Island; becomes King of one of the Fejee Islands. Fogg becomes a barber in San Francisco, in partnership with his late colored master; after a checkered career as a prize fighter; his wife is Miss Libby. Ingalls is a civil engineer constructing a railroad across the continent of South America. McIntyre becomes professor of a college in Oregon. Pease is a Mormon prophet in Utah, who hopes to fill Brigham Young's place. Moor—a strong Republican, becomes a Greenbacker—for the good of humanity; marries Miss A. J. Ring. Wade, after selling fish, lemonade at the circus, etc., becomes Judge Wade. Wilson become a physician, but thought the climate of Maine unhealthy, as most of his patients died. Miss A. L. Ring became a noted actress. Smith, is a farmer with an interesting family of sixteen children, and a wife of irresistibly persuasive powers, when a broomstick is convenient. Plaisted becomes a mechanical engineer. White and Wyman become evangelists—*a la* Moody and Sankey.

The foregoing is only a synopsis of the Prophecy. We have not the space to give it in full.

The exercises closed at a somewhat late hour, amid good-byes and well-wishes earnestly expressed.

At Mr. CLARENCE DAKIN'S Art Store will be seen some fine water color sketches by Miss Susan Hale of Boston, an advanced style of painting that is very effective. A few made at North Carolina are particularly fine. Miss Hale stands first among the water color artists in Boston, and as a teacher is unrivalled. 3t* Jne29

THE SCIENCE OF MEDICINE is a wonderful one, but as great a wonder is Dr. BULLOCK'S KIDNEY REMEDY, "NEPHRETICUM," which cures readily the gravest cases of Kidney, Bladder and Urinary Diseases, Gravel, &c. There is serious meaning in this expression. That wearied step, languid eye and feeling of general lassitude, come from "spring sickness." HOW TO GET WELL.
Thousands of persons are constantly troubled with a combination of diseases. Diseased kidneys and costive bowels are the tormentors. DON'T TRUST THEM,
When you feel badly, and have pains here and there in your body that you don't know how to account for, it is the most foolish policy in the world to take the advice of people who say: "Oh! there's nothing the matter with you. Let yourself alone and you will come out all right." These folks know nothing about it, and may be trifling with your life. You may have Kidney or Liver trouble. Send right out to your druggist and get a bottle of Dr. David Kennedy's "Favorite Remedy" and then you will be all right, or write to the Doctor at Rondout, N. Y.

"WOMEN NEVER THINK."
If the crabbed old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their families well, and would note their sagacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, at a mere nominal expense, he would be forced to acknowledge that such sentiments are baseless and false.—*Picayune.*

IROQUOIS AT ASCOT.

HOW THE AMERICAN WON THE PRINCE OF WALES' STAKES IN THE PRESENCE OF THE PRINCESS OF WALES AND SUITE.

Mail advices to the 19th show that Iroquois' victory at Ascot on the first day, when he won the Prince of Wales' stakes, was a popular one. The weather was very fine and the attendance large, the lawn and stands being crowded with the wealth and beauty of the empire. The royal balcony did not, however, present the usual brilliant toilets, nearly all wearing dark colors. Her Royal Highness, the Princess of Wales, wore a robe of satin of a dark hue, known among modistes as heliotrope. This was modestly trimmed with rich lace, which, however, scarcely served to relieve the prevailing tint. The Princess' bonnet was of the same color, the sole embellishment being a small cluster of grapes. The Duchess of Connaught was the only one of the party who affected aught pertaining to brilliancy. She was attired in a close-fitting bodice of flowered silk, the prevailing tint being dull red, the skirt of the robe being of dark gray trimmed with similar material to that of the bodice.

In the racing Archer led off by winning the Trial Stakes with Lord Wilton's Cradle. Next, Webb captured a Maiden Plate with Mr Radmall's Kingdom. Then came the first of the three long-distance races, the gold vase given by Her Majesty, which Fordham, riding Ambassadress at 111 pounds, placed to the credit of Lord Falmouth, beating Monarch and Peter, the last named ridden by Charley Wood, stopping with a back jumping and kicking fit. The distance was two miles, and was run in 3 57½. The next event was the three-year-old race of the day, the Prince of Wales' Stakes, a mile and five furlongs. The starters, weights and riders were Iroquois (Archer), 131 pounds; Maskelyne (J. Goater), 12[illegible] pounds; Voluptuary, (G Fordham), 125 pounds; Geologist, (T Cannon), 122 pounds, Great Carle (J. Snowden) 122 pounds, Nesscliff (J. Osborne), 115 pounds, and Culloden (Gallon), 11[illegible] pounds.

The Sportsman thus tells the story of the race: "A start was effected at the first attempt, and for a few strides Nesscliff showed in front. He was, however, soon pulled back, and Culloden went on clear of Nesscliff, Voluptuary, Geologist, and Great Carle, Maskelyne bringing up the rear. Culloden was soon leading twenty lengths, and into the Swinley Bottom was followed by Voluptuary and Nesscliff side by side, with Geologist and Iroquois following in their heels, and Maskelyne next, the rear now being brought up by Great Carle. Before entering the old course Culloden began to come back, and as they passed the Limekilns was caught and passed by Nesscliff and Voluptuary. His case in the next few strides became quite hopeless, and he rapidly dropped back into the rearmost position and became tailed off. At the same time Maskelyne ran into third place, Great Carle and Geologist going on next two lengths clear of Iroquois. At the commencement of the bend Voluptuary took up the running, and was followed into the straight by Nesscliff and Great Carle, and so they ran to the foot of the hill, where the leading trio were beaten, and Iroquois came out with Geologist, and in a good race home the American always had the best of it, and won by half a length; Great Carle was a bad third, Maskelyne fourth, Nesscliff fifth, Voluptuary next, and Culloden was last, beaten off. Time (by Benson's chronograph) 3 01. Value of the stakes, £2 800."

The victory was loudly applauded, Archer and Iroquois, as at Epsom, having much difficulty to get back to the scales, so great was the crowd, but it was on the second day that Archer rode perhaps the greatest race of his wonderful career. He had the mount on Sir John Astley's Peter for the Royal Hunt Cup over the New Mile, for which twenty started. Peter was the favorite and was the first away, he ran for a couple of hundred yards when he again stopped short and began kicking. By dint of kindly persuasion Archer prevailed upon the horse to go in pursuit of the field, which he did so fast that in the last fifty yards he raced past Petronel and Sword Dance and won by three-quarters of a length. Of the Americans out that day [illegible] who ran in a hood and blinkers, was beaten a length and a half by Maskelyne for the Ascot Derby. [illegible] was ridden by Morgan and is described as a [illegible] customer to win a good [illegible] ere the season closes, for although he has a curly hock he can gallop and will be fitter in the autumn than he is at present.

In the District Court of the United States for the District of Maine.

In the matter of WILLIAM K. LANCEY, Bankrupt. In Bankruptcy.

At Portland in said District, on the 2[illegible]st day of May, A. D. 1881. Before Hon. Edward Fox, Judge of said District Court, in Bankruptcy District of Maine, ss:—

Upon the application of Levi Greenleaf, of Pittsfield in the County of Somerset and State of Maine, Assignee of William K. Lancey, asking leave to execute a receipt in full of all demands to one against Franklin Smith, and a discharge to one C. N. Gower of all liability under certain agreement given by him to said Lancey relative to certain execution [illegible] so far as said Smith is bound to protect said Gower, and a receipt in full to date of all claims against Smith & Meader, said Smith being desirous of having a complete and irrevocable bar to all claims on the part of said estate, and it seeming just that I should have the same, as from a careful examination it appears at least that nothing is due from him and by an amicable settlement all litigation and consequent expense to said estate may be avoided. *It is ordered,* that notice of this application be given to all parties interested to appear at the June Term of this Court, to be held at Bangor on the 28th day of June, A. D. 1881, at ten o'clock in the forenoon, by publication twice a week in the Bangor Daily Whig and Courier and Daily Kennebec Journal.

Witness the Honorable Edward Fox, Judge of the said Court and the seal thereof, at Portland in [illegible] A. D. 1881.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on and they will be delivered earlier than if the same is put out at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8 to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Carriers' window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $3 20 [illegible]

Stamps cut from Stamped Envelopes cannot be used to prepay postage. The use of such is punishable by a fine of fifty dollars. Stamped Envelopes spoiled in directing, are redeemed at this office.
